My dear Sam.

We had our Water Co. hearing this forenoon before Judge Reed in Camden and he has reserved his decision as to the power of the Co. to cut a canal under exclusive law. Meantime I have to admit that decision. My impression is that he intends to put the matter in such shape that we must go to the Supreme Court with it on a writ of certiorari - He is, apparently, indisposed to assume the responsibility of a decision especially in view of the fact that he gave the Co. a condemnation jury last winter on a piece of farm property near us, the owner of which says he was too poor to employ a lawyer to oppose it.

It is now suggested that I stay here until the Annual Report is ready to issue. This would mean middle July or past. but that I don't want to do.

I can arrange Mammoth payment of course without being there, and your work will not come to a head for a month later, but Morton will be testing our hides, as work is practically stopped there now.

I will keep you advised but am much disappointed that we did not get a decision to day that would let me get free for two or three months.

all are as well as usual and send love in reply to your many days which I have delivered all around. Ever affy W. F. C
